2017	65	95	84	99
<b>Total</b>	<b>694</b>	<b>3516</b>	<b>3390</b>	<b>3786</b>

### ABOUT THIS REPORT

The data presented here are drawn from the Global Terrorism Database (GTD). The GTD contains information on more than 180,000 terrorist attacks that have occurred around the world since 1970. For more information about the GTD, visit [www.start.umd.edu/gtd](http://www.start.umd.edu/gtd). The GTD is a project of the National Consortium for the Study of Terrorism and Responses to Terrorism (START). The authors of this Fact Sheet are START's Dr. Erin Miller and Dr. Michael Jensen. For questions about this report, contact [infostart@start.umd.edu](mailto:infostart@start.umd.edu).

*The National Consortium for the Study of Terrorism and Responses to Terrorism (START) is supported in part by the Science and Technology Directorate of the U.S. Department of Homeland Security through a Center of Excellence program based at the University of Maryland. START uses state-of-the-art theories, methods and data from the social and behavioral sciences to improve understanding of the origins, dynamics and social and psychological impacts of terrorism. For more information, visit [www.start.umd.edu](http://www.start.umd.edu). This research was supported by the Science and Technology Directorate of the U.S. Department of Homeland Security through award number 2012-ST-061-CS0001 and the U.S. Department of State. The views and conclusions contained in this document are those of the authors and should not be interpreted as necessarily representing the official policies, either expressed or implied, of the U.S. Department of Homeland Security, the U.S. Department of State or START.*
