### BSST 288Y, Special Topics in Terrorism Studies: Terrorism and Popular Culture

*Munich is a scenic, historic city in southern Germany, Oklahoma City is the U.S. state of Oklahoma's capital city, and Sept. 11, 2001 is a date on a calendar. But with terrorist attacks during the 1972 Olympics in Munich, on the Murrah federal building in Oklahoma City in 1995, and against Washington DC and New York City on Sept. 11, these cities and this date have also come to mean so much more. The summer course "Terrorism and Popular Culture" at the University of Maryland, College Park explores through readings, TV shows, feature films, and field trips how popular culture – ordinary people's everyday practices -- attempt to make sense of these very different times and places, not only for those who survived these difficult, complex events, but also for those living in their wake.*
